

# NANODIP

READY TO USE LACTIC ACID BASED PRODUCT FOR POST MILKING HYGIENE, CONTAINING NANOTECHNOLOGY

- Nanotechnology gives improved efficacy, barrier and UV protection properties
- Revolutionary new thickener for superior cling and film forming
- Contains glycerine, lanolin, allantoin and Aloe Vera for superior teat condition

## RECOMMENDED USAGE

### POST-MILKING TEAT IMMERSION

The product should be used direct from the container without dilution.

Fill a teat cup two thirds full with the product.

Immediately after each cow has been milked, dip each teat in the solution ensuring that the entire surface of the teat comes in contact with the solution.

Refill the cup as necessary.

Teat cups should be emptied after milking and washed before reuse.

Wash and dry udders and teats before next milking.

**Storage:** Store in a dry well ventilated area away from sources of heat or ignition

**Pack Size:** 25,200 & 1000 litre

**Shelf Life:** 2 years from date of manufacture
